

Time to Step it UP!!!!

The treatment world for Chemical Dependency is changing before our eyes!!!

1 Hour CEU

- What will it take to ensure that the clients and their families get the help they need?
- How do we ensure that the clients don't get lost in the shuffle of managed care?
- How can we better support each other as clinicians to improve client care.

Step up is a newly formed networking group of clinicians who are willing to "step out of the box" and discuss solutions to better client care.

If these issues are of concern to you, come be an instrument of change and join us.

Monday, March 15th

11:30am to 1:00pm (Pizza Served)

**ACFC 7525 John T White Rd.
Fort Worth, Texas 76120**
